West New York, NJ 07093 | (607) 319-1563 | ll923@cornell.edu | lamabing.github.io

EDUCATION

Cornell University, Ithaca, NY May 2022
M.P.A. in Economic and Financial Policy, GPA: 3.8/4.0
Selected Coursework: Intermediate Microeconomics (A+), Applied Statistics (A), Economics of Consumer Policy (A), Behavioral Economics (A), Public Finance (A-), Introduction to GIS (A)

Shanghai Jiao Tong University, Shanghai, China April 2020
M.S. in Public Policy
Thesis: Educational Resource Allocation and Equity in Opportunities: Evidence from Housing Price Premiums
Summer Session: UCLA (Introduction to Data Analysis, Urban Planning & Policy)

Shanghai Jiao Tong University, Shanghai, China July 2017
B.A. in Management, GPA: 3.8/4.0, Rank: 5/61
Selected Coursework: Micro & Macroeconomics, Public Policy Analysis, Mathematics, Statistics, Quantitative Analysis, Research Methodology, Urban Development & Management

RESEARCH INTERESTS

Applied microeconomics · Public and health economics · Education policy · Policy evaluation · Urban studies

PUBLICATIONS

Wang, Yu, Lingbing Li, and Cheng-rui Wei. *"Theoretical and Practical Approach of Refined Urban Management in Metro Cities: A Case Study of Shanghai."* Journal of SJTU (Philosophy and Social Sciences), 27(126), September 2019. (In Chinese)

Wang, Yu, Cheng-rui Wei, Yan Wang, and Lingbing Li. *"Empirical Study on Evaluation of Carrying Capacity of Urban Public Service in Four Chinese Mega Cities 2005–2015."* The Journal of Shanghai Administration Institute, 19(5), May 2018. (In Chinese)

RESEARCH IN PROGRESS

"Educational Resources Provision, School Quality Capitalization, and Educational Opportunities," with Prof. Yu Wang.

"Community Health Centers and Mortality Revisited: Heterogeneity-Robust Evidence from a Staggered Rollout", independent research

RESEARCH EXPERIENCE

Beijing Institute of Big Data Research, Peking University, China March–June 2021
Research Consultant

- Developed the theoretical framework and indicator system for a city-level Smart Management Platform, translating urban management and sustainable-development objectives into measurable indicators
- Integrated sustainability considerations into the strategic framework of a leading state-owned energy company, linking corporate strategy with broader environmental and socioeconomic development objectives
- Examined how public education resources are capitalized into housing prices, building a full-sample housing dataset in Python, developed empirical specifications for hedonic pricing models in R, and mapped spatial patterns in ArcGIS

Prof. Yu Wang's Urban Studies Research Group, Shanghai Jiao Tong University, China July 2017–April 2020
Research Assistant

- Conducted semi-structured interviews with government administrators and community stakeholders and an international comparative literature review, contributing to two co-authored journal articles on urban management
- Investigated the evolution of research on sustainable metropolitan development through systematic literature review and CiteSpace-based bibliometric analysis, mapping major research themes, and intellectual linkages
- Co-designed a resident survey on perceptions of built space quality; collected and analyzed responses to assess where quality improvements were needed

Urban Governance Institute, Shanghai Jiao Tong University, China December 2017–August 2018
Big Data Center Research Assistant

- Collected, cleaned, and structured government administrative data to support interdisciplinary research

Prof. Xiaohua Zheng's Case Study, China March–September 2016
Case Study Assistant; case published on the China Case Center for Professional Degrees Education, June 2017

PROFESSIONAL EXPERIENCE

International Institute for the Brain, New York, NY December 2022–Present
Finance Associate

- Developed program budgets and monitored implementation; audited financial data, applying programming and data-analysis techniques to evaluate resource utilization; analyzed nonprofit-sector compensation and efficiency-ratio data
- Designed financial models for P&L, cash-flow forecasting, revenue analysis, and payment behavior; conducted financial health analysis, monitored transactions and financial ratios to support data-driven decision-making
- Prepared financial statements and IRS Tax Form 990; reported to philanthropic contributors and board members; managed contracts and affidavits, ensuring document validity and regulatory compliance

U.S. Government Accountability Office (Remote) January–June 2022
Environmental Justice Capstone Researcher

- Sourced demographic data from ACS databases and pollution data from NYS/NYC government databases; clipped and joined GIS data to illustrate pollution distribution and identify the most overburdened areas via thematic mapping
- Wrote a literature review on socioeconomic and geographical factors; analyzed NYS/NYC laws, policies, civil actions, and court cases; designed a project matrix and research plan, and proposed solutions

Guojin Securities, Shanghai, China June–August 2021
Investment Banking Analyst Intern (Research Track)

TEACHING ASSISTANT EXPERIENCE

Shanghai Jiao Tong University, China January–June 2019
Teaching Assistant, Urban Development and Management

HONORS & AWARDS

- Undergraduate Students Guanghua Scholarship, 2017 (Outstanding academic performance, top 3%)
- Award of Excellence, National Postgraduate Innovation Academic Seminar, 2017

PROGRAMMING, SOFTWARE & CERTIFICATES

R, Stata, PostgreSQL, Python, SPSS, ArcGIS, NVivo, CiteSpace, Microsoft Office; CITI IRB Certificate
